

ASSIGNMENT 4

Student Name	Anupriya S
Student Roll Number	820519205004
Maximum Marks	2 Marks
Project Name	Skill / Job Recommender Application
Team ID	PNT2022TMID52437

Questions:

1. Pull an image from docker hub and run it in docker playground.
2. Create a docker file for the jobportal application and deploy it in Docker desktop application.
3. Create a docker file for the jobportal application and deploy it in Docker desktop application.
4. Create a IBM container registry and deploy helloworld app or jobportal app.
5. Create a Kubernetes cluster in IBM cloud and deploy helloworld image or jobportal image and also expose the same app to run in nodeport

Output:

Pull image in docker:

```

Hello from Docker!
This message shows that your installation appears to be working correctly.

To generate this message, Docker took the following steps:
 1. The Docker client contacted the Docker daemon.
 2. The Docker daemon pulled the "hello-world" image from the Docker Hub.
    (amd64)
```
